

MEET FRANKIE

INTRODUCTION

Hi, I'm Frankie; a therapy dog at Wise this year. Research shows that my presence in the classroom can help control daily anxiety, regulate emotional arousals, and improve mood. Since I am trained to be attentive to a child's needs and offer unconditional love, I can often stabilize their intense emotions. I love long walks and smelling all the smells. I love kids of all ages and I wake up each morning ready to learn, love, and see my classroom friends!

ABOUT ME

Breed: Kentucky Mutt

Birthday: February
